

Mantorp 2007-03-13

To whom it may concern,

Over last few weeks there has been an intense debate on the race distance for motorcycles at Mantorp Park in 2007.

As a result of this discussion, the Swedish Motorcycle Federation (SVEMO) issued, on Friday the 9th of March, a change of the license for the track. The new licence states that Mantorp Park can only run Top Fuel Bike and Super Twin over 201 meters, but can still run Pro Stock Bike over 402 meters.

Due to the new licence, we have decided not to run the UEM European Drag Bike Championship at Mantorp Park until further notice. We will of course invite all affected teams back to Mantorp Park as soon as we can run 402 meters again.

We apologise the late notice of this decision, but as the new license was not issued until last week we could not inform you of this any faster.

Please observe that this new track license do not affect the race distance for any national motorcycle classes except Super Twin Top Fuel and Top Fuel Bike. Therefore will we invite the Bike classes in NDRS as usual (Super Gas and Super Comp Bike) and maybe some other national Bike classes which are allowed to run the full 402 metres under the new licence, to race at Mantorp Park and VEIDEC Festival this summer.

Kind regards

Fredrik Ström
Event Director for VEIDEC Festival
